TI DVSDK 4.02 Patches for LeopardBoard 368

August 21, 2017

To: Leopard Board 368 Community Members

Subject: Zip File Password

In order to unzip the 'ti-dvSDK_dm368-evm_4_02_00_06_patch_files' folder, you must obtain a 'password' (decryption key) from Cimarron Systems, LLC by sending us an email as follows:

Use this link: support@cimarronsystems.com

If you are a student at a college or university, an unzip 'password' will be sent to you via the email address you have supplied, normally within 24 hours, provided that your email is a college or university provided email address with an 'edu' suffix (or equivalent). If you are a member of a corporate engineering team or are a private individual, you must purchase the unzip 'password' from the Cimarron Systems website shop. In either case, your email address and any other information you provide will be kept strictly confidential.

Enjoy!

Cimarron Systems

Note: *TI DVSDK 4.02 Patches for LeopardBoard 368 is designated for Leopard Board 368 developer community members as a way for us to give back to the Leopard Board 368 community by providing a low-cost and/or no-cost way to patch the TI DVSDK 4.02. Additionally, since installation is very straightforward, no support is provided with this set of patches.*
